

## **FARAERO and FARFORM A.Ş. ENVIRONMENTAL POLICY**

As FARAERO and FARFORM A.Ş.; we aim to always prioritize the protection of the environment by preventing and reducing the environmental footprint of all our activities while providing innovative automotive products and services that benefit society.

In pursuance of this policy, in order to achieve our main goals and objectives in all areas in which we operate, we are committed to ;

- Examining national and international environmental dimensions,
- Operating in line with legal regulations regarding the environment,
- Preventing negative effects on the environment that may arise from our activities,
- Using recyclable materials and reducing natural resource consumption,
- Reducing air, water and soil pollution and noise,
- Reducing waste generation at its source and supporting recycling and recovery,
- Turning environmental risks into opportunities,
- Providing a healthy, safe and clean working environment for our employees,
- Raising awareness among our employees by making them adopt our environmental principle.
