

FARAERO and FARFORM A.Ş. QUALITY POLICY

Our mission is to contribute to the Turkish society by primarily producing high quality automotive parts and components.

Customer satisfaction is our main principle, and quality is a prerequisite for this. In this regard, it is our most important duty to meet the expectations of our customers and thus maintain our competitive power both in the Turkish market and in international markets.

We must succeed this mission by building our work on the principles set out below;

- Total Quality Control based on the participation of all our employees and mutual trust is our company lifestyle. We cannot make concessions on quality in anything we do.
- Continuous betterment (Kaizen) is indispensable for us in all our work and operations.
- Our quality goal is to always be better than our competitors by producing number 1 automotive parts and components in terms of customer satisfaction.

Faraero/Farform A.Ş. will achieve this mission and reach up to its adopted goal with the intense efforts and dedication of the entire Faraero/Farform team.
